

How to earn a \$100 discount on your Startup Fee:

Please read this document and the agreement it contains. If you agree to the terms of the agreement, please sign it and fax it along with the order form. Your startup fee will be discounted by the amount of \$100.

Having a successful website requires a number of things. It needs to be attractive and well designed. It needs to be coded to place well in search engines. It should have a method of creating referrals to and from other non-competing businesses in the area. We do all these things and we do them very well.

However, there is one thing that only you can do. It stems from the fact that the Internet is not magic. Despite us doing all the above, the single most important thing that can take place in reference to the local area is for you to promote your domain name.

Please read and sign the agreement below to qualify you for a \$100 discount of your one-time startup fee.

Agreement

I hereby agree that I will make a good faith effort to promote my domain name by placing it in conspicuous places to be seen by the public. Such places may include:

- In ALL advertising
- In my store window
- On my business cards
- On all handouts
- On my vehicles
- In my phone message
- In other places that I may decide

I acknowledge that I am aware that the successful marketing on my web site is a very important part of having a successful web site.
